REDUCING TO THE ESSENTIAL

We understand functionality when the form of the object is determined by its function. When we design with the essentials and remove any element that distracts us from that objective, ignoring everything that does not serve the purpose for which it was created.

Entendemos la funcionalidad cuando la forma del objeto está impulsada por la función del mismo objeto. Cuando diseñamos con lo esencial y eliminamos cualquier elemento que nos distraiga de ese objetivo, ignorando todo aquello que no sirve para el propósito para el que fue creado.
