WWW.LOREAKMENDIAN.COM

Loreak Mendian is a firm that appeared in the early 90's in the world of graffiti and club culture in San Sebastian. The emblematic logo of the daisy begins to appear in the bathrooms of some of the music halls of the city and little by little, it begins to be engraved in the retina of many of the assistants to these "bars".

Thus, in 1995, the first Loreak Mendian store was opened in the old part of the city, where besides being a store, it was also a place of pilgrimage for dj's and music lovers to acquire their vinyls in the small anteroom that preceded the store. Besides being able to buy your T-shirt with the logo of the brand, you could watch how it was produced, since the back room was located in the silk-screen printing workshop of the brand. Small local production, that's how Loreak Mendian was born.

One of the first concept stores that combined clothing, music and silk-screen printing workshop.

A much larger store in the center of the city and expanding its collection beyond T-shirts: designing and making shirts, pants, jackets, accessories etc. Thus creating a street brand for men and women careful, colorful and timeless design, being a reference in the movement that was beginning to flourish: slow fashion.

Over the years, Loreak Mendian achieved great success at a European level, having its own stores in Spain, France and Australia and wholesale customers throughout Europe and part of Asia.

Today, Loreak Mendian continues to have design and creativity as a reference point, but it also adds and expands its knowledge in functionality and sustainability. Giving the pieces a unique character and qualities and committing to the environment that surrounds us.

The success was such that within a few years the brand expanded.
