Sustainability

ORGANIC COTTON

It is a natural fiber grown without using pesticides and synthetic fertilizers, in a sustainable way. It does not pollute the land, nor is it harmful to the health of those who cultivate and handle it.

RECYCLED FABRICS

Textiles are processed to give garments a second life and to reduce their impact on the environment.

Commitment

OEKO-TEX

Textiles that have been tested to control and avoid any harmful substances.

PFC FREE

This garment doesn't contain any fluorochemicals, it is free from any toxic element.

BLUE SIGN

This standard for environmental health and safety in the manufacturing of textiles, certifies a sustainable production.
